COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMPs to install. Include the date when corrections are made.

* Streamlet or flowline crossing still needs completion of Culvert Installation

5/1/2014 Met with Jenny ^{BWF} & Mike ^{Grig} from the Goals Foundation - Scott ^{Grig} Dan Dailey ^{Grig} property owner's Tom from Granite Construction. Dan signed the WC SCAP permit application. Tom from Granite indicated he would revise the SWPPP and resubmit by 5/7/2014. We looked at the trail crossing of the flowline owner to put in 3inch rock to line a "vee ditch" crossing. Spoil dirt along the roadway or trail to be picked up and moved to be spread out in field or placed with other dirt @ east end of staging area. That same area and other bare dirt to be reseeded. Granite to do bi-weekly inspections. County monthly inspection until after Acceptance of the NOI. BWF
