		Estimated Project Length (mo) 8 months	Previous Permit No. (if applicable)
		Estimated Start Date 03-28-2014	Actual Start Date

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

- Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.
- Site Plan:** The date that the applicant submits a site plan application or amended site plan.
- Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.
- Land Use Permit:** The date that the applicant submits a land use permit application.
- Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

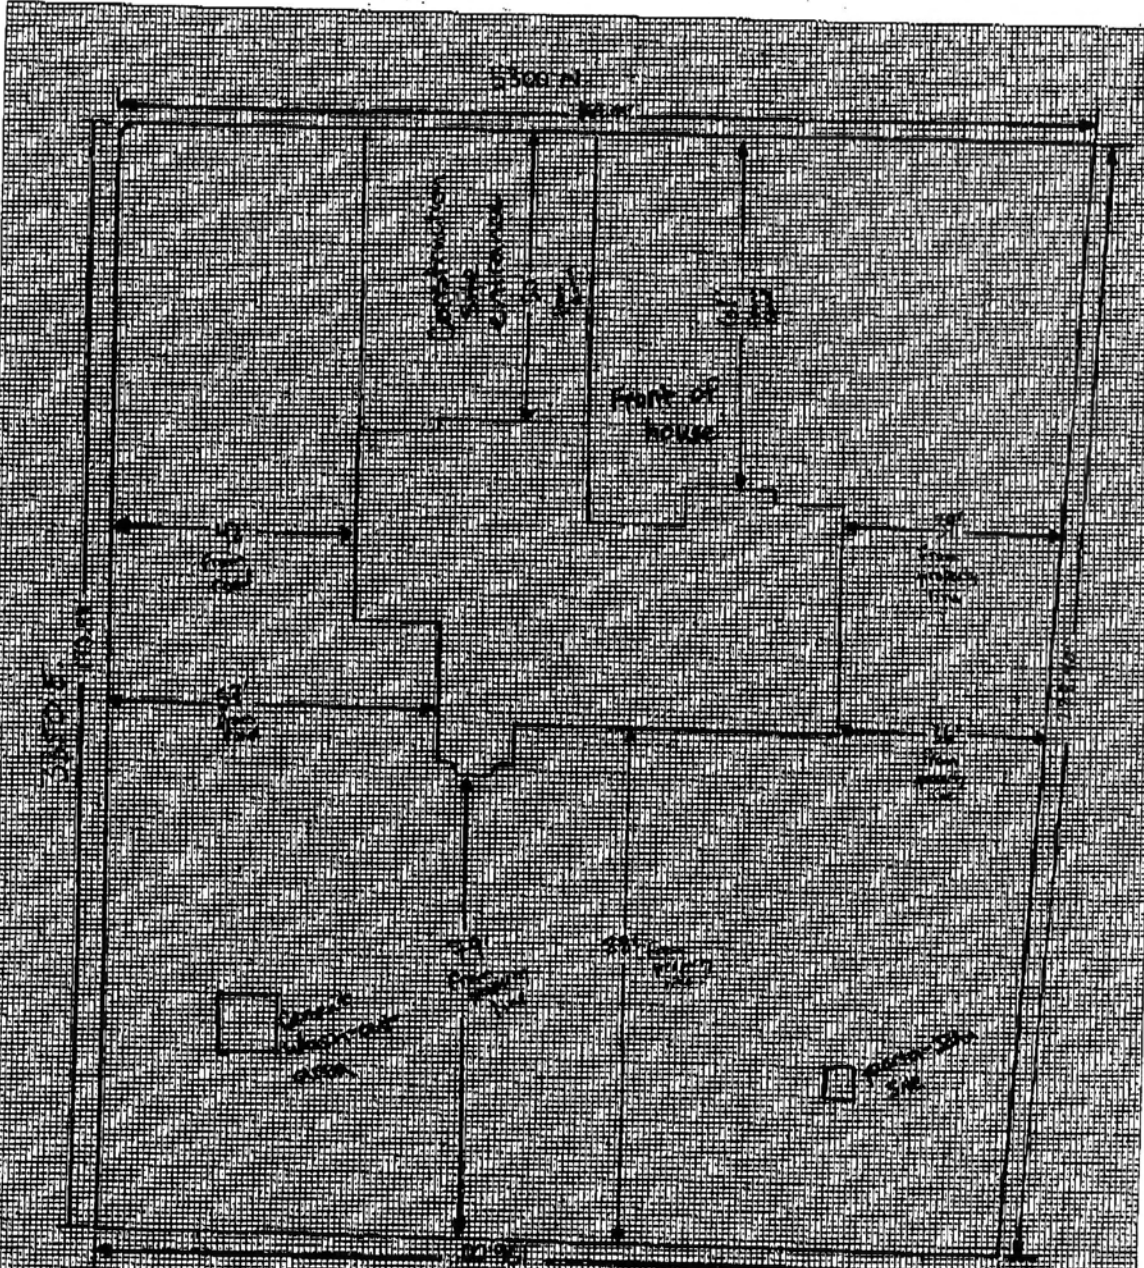

Please explain your request.
 we had filled out the state SWPPP and Rochelle Pfeaster reviewed it and said we only needed to fill out the County SWPPP since the amount of land disturbance is less than 5000 sq. ft. and due to the age of the Subdivision.
Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

Owner or Authorized Representative Signature 	Date 03-26-2014
Signature of Approval 	Date 3-27-14

Weber County SWPPP
Project Name: Olsen - SFD

- 1) How much area will be disturbed?
3,360 square feet will be disturbed.
- 2) Who will be responsible for the conditions of the site during construction?
Michael Olsen (Owner) 801-866-4729
- 3) What will be done to prevent the neighbors from being affected by the proposed construction activities?
Construction will take place during reasonable hours of the day. Property will maintain good housekeeping through proper material and waste management handling.
- 4) What will be done with all excavated material temporarily and permanently?
No soil will be removed from the construction site. All soil will be used as fill and in landscaping the property.
- 5) Where is the concrete washout and how will it be maintained?
Concrete washout area will be provided on the lower section of the lot. (See site map)
Once the concrete dries up, it will be broken up and hauled away.
- 6) Where are the port-Johns located and how are they installed?
The porta-john will be located in the rear of the property (See site map). It will be installed on a flat surface by the porta-john provider.
- 7) How will the construction entrance be built and where will it be located?
The construction entrance will be built using a gravel road base to minimize track out sediment onto off site streets. This entrance will be located where the future drive way to the home will be at the front of the home (see site map).
- 8) What will you do when mud and/or dirt gets tracked on the asphalt?
If mud and dirt gets tracked onto the asphalt, I will clean it off the best I can returning it to the site where the construction is taking place.
- 9) Is there a drainage ditch or swale on or near your property? How will it be protected?
There is a swale at the front of the lot. A 12" concrete culvert will be installed to protect the swale.
- 10) What currently happens to the rain/storm water when it reaches this project site?
Any storm water that reaches the project site is currently absorbed into the existing vegetation.
- 11) Show all existing occupation on the property.
There is no existing occupation on the property.
