

NARRATIVE

We are seeking a permit to construct a shed to be able to store equipment and hay. In the past, we've had use of a shed on the neighboring property currently owned by my mother's trust to store hay and protect equipment from the weather. Her property, including the outbuildings will be sold in the near future. The shed we wish to construct will allow us to continue to protect our equipment and hay to feed steers that we raise in partnership using pasture owned by my neighbor/brother.

Included with this page is an aerial photo of our home and property. The home is surrounded by fields on which we grow hay.

Also included herewith are receipts showing payment for field work, seed for the alfalfa/grass mix we planted this year in the fields. A receipt is also included for the amount spent on cutting/baling hay on our property (This receipt included the amount charged for processing hay on mine and my neighbors' properties. We shared the cost of this service).
