RE: Stream Channel Alteration No. 14-35-14SA
Unnamed Water Course
Lewis Homes, Inc.

Dear Mr. Rasmussen,

Upon receipt of the notice you sent regarding the above referenced stream alteration permit application, we contacted the authorized representative, Eric Householder, to request more information. We met with Mr. Householder on May 28 to discuss his proposed project. In addition to permitting, we requested information on the design of the roadway, culvert, and detention pond along with the associated hydraulics and hydrology of the natural channel and its associated drainage area.

As of today, June 4, we have not yet received any additional information. I respectfully request that the June 10 response deadline be extended so that the applicant has adequate time to respond to our requests for additional information, and we have time to review the submittals and adequately respond to your request.

Therefore, I cannot yet provide you with the information needed for you to determine whether this project will diminish the channel's ability to convey flows.

If you have any questions, please feel free to contact me at (801) 399-8761.

Sincerely,

Dana Q. Shuler, P.E.
Weber County Engineering
