SWPPP, EROSION, SEDIMENT AND HOUSEKEEPING BMP'S INFORMATION	YES	NO	N/A
1. Is the SWPPP on site and accessible, or is the SWPPP location posted in an obvious place and reasonably accessible (in a short time)?	PSEARCH R	L	home
2. Are erosion control, sediment control, and good housekeeping BMP's installed on the site as shown in the SWPPP?	+	_	10
3. Has the SWPPP been updated to reflect the current site conditions (modifications dated & initialed on site map, new BMPs on site map, discontinued	\vdash		1
BMPs crossed off site map, new BMP details & spec's in SWPPP, SWPPP amendment Log, etc.)? 4. Are on-site inspections being performed and recorded by a qualified person on a weekly or biweekly basis, reporting items required by permit? (Inspector			7
name &qualifications, weather, problems/repairs, corrective action, new BMPs, removed BMPs, discharges, etc.)			6
5. Have all corrective action items from previous inspections been addressed and documented within the time frame allotted by the inspector?			~
6. Are SW flows entering and leaving the construction site controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, sitt fence			~
upgradient boundary diversion, down gradient boundary sediment control, etc.)	X		
7. Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations?		K	
3. Is there evidence of vehicles tracking soil off the construction site? 9. Is there soil, construction material, landscaping items, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a		P	
storm drain or water body?		(ill.
10. Is there a need to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface		\sim	
roughening, pipe slope drain, dust control, etc)?		K	
11. Is there a need to repair, maintain, or improve sediment control BMPs (silt fence, check dams, fiber rolls, sediment trap/basin, inlet protection, waddles, straw bails, curb cut-back, etc?			
12. Is there a need to repair, maintain, or improve good housekeeping controls (clean track out had, sweeping, construction, materials management			-
itter/trash control, port-o-potities staked down, fueling areas, concrete wash out area, proper curb ramps, spill prevention, etc)?		KI	
13. Are there disturbed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozen ground)?		X	
4. Are there places where BMPs are needed and should be installed or not needed and should be removed?	1	X	
spector, please list all applicable SEV codes: spector spector please list all applicable SEV codes: spector please list all applicable spector please l	mation, ti	he	-
