

Subject: Snowbasin Legend Well House Project Narrative
Date 06-26-2024

Snowbasin Resort is planning to build a Well House for the Legend Well located west of the Wildcat Parking Lot in order to supply the new water from the Legend well into their current water system. The project has submitted for a building permit with Weber County and is in the process of being approved. We have also submitted for DDW approval of the project and are in the process of being approved.

A Geotechnical Report with addendum, & Construction Plans with Calculations have been submitted with this conditional use permit application. The construction plans contain the site plan, water and wastewater plan (no sanitary sewer is involved in this project), erosion control plan showing the disturbed areas being returned to native conditions with a native seed mix, vicinity map, structural drawings & electrical drawings (currently no exterior lighting is being planned).
