			Estimated Project Length (mo) 15 Months	Previous Permit No. (if applicable)
			Estimated Start Date August 15, 2014	Actual Start Date

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

Subdivision: The date that the applicant submits the preliminary subdivision development plat application.

Site Plan: The date that the applicant submits a site plan application or amended site plan.

Building Permit: The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

Land Use Permit: The date that the applicant submits a land use permit application.

Other: At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

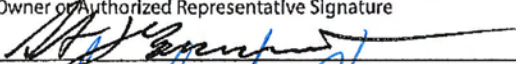

Applicant Narrative

Please explain your request.

We plan to build a cabin as indicated on the Site Plan. The footprint of the cabin is 46' by 30'. Dirt from the excavation of the cabin foundation will be used to backfill the foundation. Any excess dirt will be used in landscaping the property around the cabin to make the slope from the cabin site a more gradual slope to the lower area below the cabin site. All excavated dirt material will remain on the property. The cabin site is situated on 19 acres of property and there should be minimal disruption to current drainage and no disruption to neighboring properties. A SWPPP will also be submitted simultaneously with this application responding to the questions associated with the SWPPP.

Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.
