Re: Blue Acres Subdivision Phase 4

To whom it may concern:

Blue Acres Subdivision Phase 4 is currently an active development on the Weber County Miradi. It appears the Weber County Planning Director granted a one (1) year extension to record this subdivision to the applicant, which will expire on March 11, 2017. One of the requirements noted on the Miradi and repeated in the time extension approval, requires the piping of the Hooper Irrigation Canal which runs through the proposed subdivision. This requirement protects the community and assists in protecting the security, safety and integrity of the canal.

It is required by Hooper Irrigation Company that the construction for piping the canal only be completed in "off-season" time periods, specifically, October 15th through April 1st, to avoid disruption of water service to our shareholders. Hooper Irrigation Company will provide its' final approval for Blue Acres Subdivision prior to the canal being piped, upon a provision and signed agreement that the developer will pipe the canal with a thirty-six (36) inch pipe, during the off-season of 2016-2017, according to all specifications established by Hooper Irrigation. It is also required that the Hooper Irrigation Company Canal Easement be recorded on all documentation.

Should you have any questions or concerns, please contact our office at (801) 985-8429.

Sincerely,

Theo G Cox
President
Board of Directors
Hooper Irrigation Company
