18 March 2015

To: Weber Morgan Health Department

Attn: Michela

Regarding the home of Mr. Jon Vance located at 2757E 6425 E Uintah.

Dug up septic tank located in front of house and installed 2 risers. Placed one riser over center lid cleanout and the other one over the rear baffle. Also installed new PVC baffle with a removable filter.

A1 Pumping was called to pump tank, which was completed March 17, 2015. Inlet baffle and drain field (ran water through drain field) appear to be in good working order.

At this time, septic tank and drain field appear to be functioning properly.

If you have any questions, feel free to contact me.
