**Subject:** Liberty Pipeline Company Lomondi Well

Ronda,

After drilling 283 feet into Camp Lomondi and with the advice and expertise of Loughlin Water hydrogeologists, Liberty Pipeline Company ceased drilling operations. Zimmerman Well Services filled the bore hole with concrete and welded a metal cap onto the conductor casing. Wasatch Valley Excavation is currently in the process of restoring the Camp Lomondi roads, paths, and grass damaged by the drilling equipment. The Conditional Use Permit issued by Weber County is no longer necessary and may be closed.
