To Whom It May Concern:

Re: Eden Subdivision
Blake Wahlen, Developer

Please accept this letter as confirmation that subject to the terms listed below, Eden Water Works Company (EWWC) will service and manage the culinary water and related services to the proposed Eden Subdivision.

Terms:

The Developer will run an 8" line to the west intersection @ 5600 E and tie in as per EWWC requirements. EWWC feels proper fire protection cannot be provided with the existing 4" water line that is currently installed. The new development will be required to have a new 8" C900 DR18 PVC line, Mueller Gate Valves, Mueller Centurion Fire Hydrants, and 1" water services for lots.

If EWWC certified water operators are not the hired Excavator to install the lines in the new development, EWWC will charge the developer daily inspection fees to verify all work meets EWWC standards.

If you have any questions or need further information you may contact Thom Summers, Certified Water Operator for EWWC, @ 801-430-2695.

Sincerely,

Calvin Welling, President
Board of Trustees
Eden Water Works Company
