12. Is there a need to repair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, litter/trash control, port-o-potties staked down, fueling areas, concrete wash out area, proper curb ramps, spill prevention, etc)?	X		
13. Are there disturbed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozen ground)?		X	
14. Are there places where BMPs are needed and should be installed or not needed and should be removed?	X		

COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMPs to install. Include the date when corrections are made.

one weekly inspection has been done on 5/19, make sure you continue doing those on either a weekly or biweekly basis.

Evidence of soil off the construction site please sweep silt fence by river needs to be fixed.

Silt fence should be added along the whole side next to the river ESPECIALLY since you have a huge pile of dirt located right there

please have items fixed by our next inspection.

Inspector, please list all applicable SEV codes:
