		Estimated Start Date 7-1-2015	Actual Start Date

**Submittal Checklist**

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

**Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.  
**Site Plan:** The date that the applicant submits a site plan application or amended site plan.  
**Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.  
**Land Use Permit:** The date that the applicant submits a land use permit application.  
**Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

**Applicant Narrative**

Please explain your request.

**Authorization**

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

# Gregg Chambers and Sons, LLC

June 3, 2015

Project: New Residence for Gregg and Natalie Chambers

SWPP Plan for New construction located at 3095 N. Hwy 162 Eden, UT

1. Area to be disturbed will be the foot plan of the house to be constructed.
2. Gregg and Natalie Chambers will be responsible for the site conditions during construction. Contact information: Gregg 801-430-0655 Natalie 801-940-1737
3. The construction activities will not start before 7:00 am and will end by 7:00pm each day. No neighbors on the east or west side of this property.
4. The excavated material will be stored on site. What is not used during the construction process will be hauled off.
5. There will be a concrete bin delivered to the construction site. It will be used for a wash station for the concrete trucks. It will be cleaned out when needed and hauled excess material away.
6. The porta-johns will be placed on the existing asphalt drive.
7. There is an existing driveway to this project. The new construction will use this existing driveway which is asphalt.
8. There is an existing asphalt driveway which will eliminate the tracking of construction material. If construction material were to track then we would sweep the material off of the road way.
9. There is not a drainage ditch or swale on or near the property.
10. It runs down and across the asphalt.
11. There are not any existing buildings on the property.
