You'll need to apply for a subdivision through Frontier.

Make sure you have the minimum [application requirements](#):

1. Pre-application meeting notes (this email thread will suffice)
2. Application filled out in Frontier
3. Subdivision plat (a survey done by a licensed surveyor)
4. Upload the PDF of all documents
5. Culinary and secondary water Well permit (the well needs to be perfected before the subdivision plat can record)
6. Septic Feasibility letter from the Health Department (You will also need to apply for a subdivision with the Health Department)
7. Title Report (dated within 30 day of application submittal)
8. Street connectivity proposal (this is required if there is an opportunity for a road connection or an easement for a future road connection)
9. The application fee for a single lot sub is \$1,225.00

Have a great day!
