	SWPPP	, EROSION, SEDI	MENT AND HOUSE	KEEPING BMP'	INFORMATION		YES	No
1. Is the SWP	PP on site and accessib	le, or is the SWPPP lo	cation posted in an obviou	us place and reasona	bly accessible (in a short tim	ne)?	1147	X
Are erosion	control, sediment control	ol, and good housekeer	ping BMP's installed on th	e site as shown in th	a SWPPP2		+	
Has the SWBMPs crossed	PPP been updated to re	flect the current site co	onditions (modifications da PPP, SWPPP amendmen	ated & initialed on sit	e map, new BMPs on site ma	ap, discontinued	1	
Are on-site in	nspections being perforr	med and recorded by a	qualified person on a we	ekly or hiweekly hasi	s, reporting items required b	v normit? (Inconst.		
name aquamic	auoris, weather, problem	ris/repairs, corrective a	iction, new BMPs, remove	ed BMPs, discharges	etc.)			
5. Have all corr	rective action items from	previous inspections l	been addressed and docu	mented within the tir	ne frame allotted by the insp	ector?		-
upgradient bou	ndary diversion, down g	radient boundary sedir	ntrolled, managed, or dive	erted around the site	(e.g. perimeter controls, be	erms, silt fence,	X	
7. Is there evide	ence of sediment discha	rge such as mud flows	s or soil deposits from the	construction site in o	ownstream locations?		(-
3. Is there evide	ence of vehicles tracking	soil off the construction	on site?					X
 Is there soil, storm drain or w 	construction material, la	andscaping items, or o	ther debris piled on imper	vious surfaces (road	s, drives) that could be wash	ned with SW to a		K
Storin diam of w	valer body?				nkets, mulch, vegetated strip			X
oughening, pip	e siope drain, dust contr	OI, etc)?						1
 Is there a net traw bails curb 	eed to repair, maintain, o cut-back, etc?	or improve sediment co	ontrol BMPs (silt fence, ch	eck dams, fiber rolls	sediment trap/basin, inlet p	rotection, wattles,		X
2. Is there a ne	ed to repair, maintain, o	or improve good house	keeping controls (clean to	ack out nad sweening	g, construction materials m	anna ann an t		X
4			יום וושכום ל פונים ביום ביום ביום	ack out pau, sweepii	ig, consudendi materials m	ianagement,	1 1	~
terru asir conuc	or, port-o-potties staked	down, fueling areas, co	oncrete wash out area, pr	oper curb ramps, spi	I prevention, etc)?			~
3. Are there dis	sturbed areas that have	not had construction a	oncrete wash out area, proctivities for 14 to 21 days	oper curb ramps, spi without stabilization?	(except snow or frozen grou	und)?		~ V
3. Are there dis	sturbed areas that have aces where BMPs are ne	not had construction are eeded and should be in	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACTIVE ACTI	oper curb ramps, spi without stabilization? d should be removed CTIONS FOR SW mpleted. However, only	(except snow or frozen group? PPP COMPLIANCE If qualified (e.g., you are a desire)		ndating s	X Decific E
3. Are there dis 4. Are there pla	sturbed areas that have aces where BMPs are ne	not had construction as eeded and should be in COMMENTS An viate, describe (in general	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		ndating s	Decific E
3. Are there dis 4. Are there pla	sturbed areas that have aces where BMPs are ne	not had construction are eeded and should be in	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? d should be removed CTIONS FOR SW mpleted. However, only	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		ndating s	X X Decific E
3. Are there dis 4. Are there pla	aces where BMPs are not and its location. If appropriately aces of	not had construction as eeded and should be in COMMENTS An viate, describe (in general	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		adating s	Decific E
3. Are there dis 4. Are there pla entify the problem	aces where BMPs are not and its location. If appropriately aces of	cown, fueling areas, control had construction as eeded and should be in COMMENTS AN ariate, describe (in general down) stream	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		ndating s	X X Decific E
3. Are there dis 4. Are there pla entify the problem of evi	aces where BMPs are not and its location. If appropriately aces of clean of	cown, fueling areas, control had construction as eeded and should be in COMMENTS AN ariate, describe (in general down) stream	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		adating s	X X Decific E
3. Are there dis 4. Are there pla entify the problem o evi	and its location. If appropriate of Clean 4	cown, fueling areas, control had construction as eeded and should be in COMMENTS AN ariate, describe (in general down) stream	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group? PPP COMPLIANCE if qualified (e.g., you are a designed).		ndating s	X X Descrite B
3. Are there dis 4. Are there pla entify the problem o evi	aces where BMPs are not and its location. If appropriately aces of clean of	cown, fueling areas, control had construction as eeded and should be in COMMENTS AN ariate, describe (in general down) stream	oncrete wash out area, proctivities for 14 to 21 days installed or not needed and ID CORRECTIVE ACT terms) what needs to be conto install. Include the date of the contour install.	oper curb ramps, spi without stabilization? I should be removed CTIONS FOR SW inpleted. However, only when corrections are m	(except snow or frozen group?
