## Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

- Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.
- Site Plan:** The date that the applicant submits a site plan application or amended site plan.
- Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.
- Land Use Permit:** The date that the applicant submits a land use permit application.
- Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

## Applicant Narrative

Please explain your request.

We are constructing a 2400 SF warehouse addition east of the existing building. The contractor, CSU, will be responsible for site conditions during construction. Temporary fence will be installed on the property line and maintained during construction to protect neighbors. Filter fabric and bales will be placed around the storm drain. A hole will be dug and lined to hold concrete wash out. No porta-john will be necessary at this site.

## Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.
