REVIEW STATUS: APPROVED

SPECIFIC COMMENTS:

1. Concerns from review #1 have been addressed. See page 98 of the second submittal.
2. Fire suppression system is required for this residence. The fire suppression plans may be a deferred submittal. No work on the fire suppression system may begin without approved plans and permit.
3. Provide a temporary address marker at the building site during construction.
4. Fire access roads for this project shall be completed and approved prior to any combustible construction. Temporary roads shall meet the same requirements for height, width and imposed loads as permanent roads.
5. All required fire hydrants and water systems shall be installed, approved and fully functional prior to any combustible construction.
6. Fire department apparatus access is required for each lot.

Every effort has been made to provide a complete and thorough review of these plans. This review does not relieve the owner, contractor and/or developer from compliance with any and all applicable codes and standards. Any change or revision of this plan will render this review void and will require submittal of the new or revised layout for fire department review.
