It is the WPPP on site and accessible, or is the SWPPP boaction posted in an obvious place and reasonably accessible (in a short time)? Are residon control, sediment control, and good housekeeping BMPs Installed on the site as shown in the SWPPP. Are the property of t	Inspection Code (circle):	SW sampling Inspector Code (circle): Type Code (circle): 1 (Municipal) 2 a Industrial 3 State	ite		
Are seroion control, sediment control, and good housekeeping BMPs Installed on the site as shown in the SWPEPP. It has the SWPPP been updated to reflect the current site conditions (modification dated is limited on site map, new BMPs on site map, discontinued MMPs crossed off site map, new BMP details & species in SWPEP, SWPEP amendment Log, etc.)? Are on-line Inspection being performed and recorded by a qualified person an awardy or blowely's basis, reporting items required by permit? (inspector arm & Apullifications, weather, problem/sepairs, corrective action, new BMPs, emoved BMPs, discharges, etc.) Let have all correctly developed, provides in sections of the construction site on trivoled, managed, or diverted around the site? (e.g. perimeter controls, berms, slit fence, pagradent boundary and gold if the construction site of discharges, etc.) Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in the construction material, landscaping items, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a construction material, indiscount of the construction site? Is there a need to repair, maintain, or improve sediment control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface upleaning, piles of or prairi, maintain, or improve sediment control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface vegetates a need to repair, maintain, or improve sediment control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface vegetates and sed of repair and sediment of the vegetates and the sed of repair and sediment of the vegetates and the vegetates and the vegetates			YES	No	N/A
I. Has the SWPPP been updated to reflect the current site conditions (modifications dated & initialed on alter map, new BMPs of saled of alter map, new BMPs details & gase's in SWPPP, SWPPP amendment Log, etc.)? A. Are on-table inspections being performed and recorded by a qualified person on a weekly of biweekly basis, reporting items required by permit? (Inspector man & Qualification, weather, problemar/peairs), corrective action, new BMPs, emonyed BMPs, discharges, etc.) I. Have all corrective action items from previous inspections been addressed and documented within the time farms allotted by the inspector? I. Have all corrective action items from previous inspections been addressed and documented within the time farms allotted by the inspector? I. Have all corrective action items from previous inspections been addressed and documented within the time farms allotted by the inspector? I. Have all corrective action items from previous inspections been addressed and documented within the time farms allotted by the inspector? I. Have all corrective action items from previous inspections been addressed and documented within the time farms allotted by the inspector? I. I. I there evidence of vehicles tracking soil off the construction site? I. Is there evidence of vehicles tracking soil off the construction site? I. Is there evidence of vehicles tracking soil off the construction site? I. Is there are vehicles of vehicles tracking soil off the construction site in form the construction site in the construction site in form the con			X		
M/Be crossed off site map, new BMP details & spec's in SWPPP, SWPPP amendment Log, etc.)? Are on-site inspections being performed and recorded by a qualified person on a weekly or thewely basis, reporting items required by permit? (inspector arm & audifications, weather, problem/repairs, corrective action, new BMPs, removed BMPs, discharges, etc.) Are SW flows entering and leaving the construction site controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, silt fence, gradient boundary sedienter control, edienter, and or diverted around the site? (e.g. perimeter controls, berms, silt fence, l.s. there evidence of sediment discharges such as mud flows or sail deposits from the construction site in downstream locations? Is there evidence of sediment discharges such as mud flows or sail deposits from the construction site in downstream locations? Is there evidence of sediment discharges such as mud flows or sail deposits from the construction site in downstream locations? Is there are of or velocities tracking adol off the construction site? Is there are off the trapsir, maintain, or improve action control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface with the sed to repair, maintain, or improve sediment control BMPs (sit fence, check dams, fiber roils, sediment trapbasin, inlet protection, watter, site there a need for repair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, and the series of the repair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, and the series of the repair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, and the series of the repair maintain, or improve good housekeeping controls (real track out area, proper out tramps, spill prevention, etc.)? A real there is there do repair, maintain, or improve good housekeeping	2. Are erosion contr	ol, sediment control, and good housekeeping BMP's installed on the site as shown in the SWPPP?	×		
Are on-tall inspections being performed and recorded by a qualified person on a weekly or biweekly basis, reporting items required by permit? (Inspector arms Aquification, weather, professor water), early fine and a submitted of the construction is inspections. Seen addressed and documented within the time frame allotted by the inspector? Are SW flows entering and leaving the construction is inspections been addressed and documented within the time frame allotted by the inspector? Are SW flows entering and leaving the construction is controlled, entering and control, developing, down gradient boundary addiment control, etc.) Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site? Is there are need to repair, maintain, or improve erosion control BMPs (lemporary stabilization, erosion blankets, mulch, vegetated strips, fip rap, surface updering, pleas obed rain, dust control, etc)? Is there a need to repair, maintain, or improve sediment control BMPs (slif fence, check dams, fiber rolls, sediment traphsain, inet protection, wattles, raw bals, cutro Loudox, etc?? Is there a need to repair, maintain, or improve sediment control BMPs (slif fence, check dams, fiber rolls, sediment traphsain, inet protection, wattles, raw bals, cutro Loudox, etc.? Is there a need to repair, maintain, or improve good housekeeping control traphs, sediment traphsain, inet protection, wattles, raw bals, cutro Loudox, etc.? Is there a need to repair, maintain, or improve good housekeeping control sediment traphsain, etc.? Is there a need to repair, maintain, or improve good housekeeping control sediment traphsain and traphsain and traphsain and traphsain and traphsain	BMPs crossed off si	ite map, new BMP details & spec's in SWPPP, SWPPP amendment Log, etc.)?	X		
Name and corrective action terms from previous inspections been addressed and documented within the time frame allotted by the inspection? Are SW flows entering and leaving the construction the controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, sill fence, organization boundary diversion, down gradient boundary sediment control, etc.) Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there evidence of vehicles tracking soil off the construction site? Is there as oil, construction material, landscaping items, or other debrid piled on impervious surfaces (roads, drives) that could be washed with SW to a morn drain or water body? Is there a need to repair, maintain, or improve erosino control BMPs (temporary stabilization, erosion blankets, mulcit, vegetated strips, rip rap, surface upplering, pile slope drain, dust control, etc?? Is there a need to repair, maintain, or improve sediment control BMPs (silf fence, check dams, fiber roils, sediment traphasin, inlet protection, wattles, raw balls, or but obtack, etc? Is there a need to repair, maintain, or improve sediment control BMPs (silf fence, check dams, fiber roils, sediment traphasin, inlet protection, wattles, raw balls, or but obtack, etc? Is there a need to repair, maintain, or improve good housekeeping controls (clean track out put, swepter), etc.)? Is there a need to repair, maintain, or improve good housekeeping controls (clean track out put, swepter), etc.)? Is there a site of the distributed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozan ground)? Is there distributed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozan ground)? Is there a distributed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozan ground)? Is there a distributed areas that	4. Are on-site insper	ctions being performed and recorded by a qualified person on a weekly or biweekly basis, reporting items required by permit? (Inspector			
Are SW flows entering and leaving the construction site controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, sill fence, goggaden boundary diversion, down gradient boundary sediment control, etc.) Is there evidence of vehicles tracking soil of the construction site in downstream locations? X Is there evidence of vehicles tracking soil of the construction site? Is there evidence of vehicles tracking soil of the construction site in the construction material, landscaping items, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a form drain or water body? Is there a red to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, muich, vegetated strips, rip rap, surface upsphering, pipe slope drain, dust control, etc)? Is there a red to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, muich, vegetated strips, rip rap, surface upsphering, pipe slope drain, dust control, etc)? Is there are not for opair, maintain, or improve erosion control BMPs (silf fence, check dams, fiber rolls, sediment trapbasin, linite protection, wattles, raw balls, curb out-back, etc? Is there are not for opair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, territrash control, port-o-potites staked down, fueling areas, concrete wash out area, proper curb rames, saili prevention, etc)? A rear there places where BMPs are needed and should be installed or not needed and should be removed? **COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE** **COMMENTS AND CORRECTIVE ACTIONS FOR SWPPPP COMPLIANCE** **Include the date when corrections are made.** **COMMENTS AND CORRECTIVE ACTIONS FOR SWPPPP COMPLIANCE** **Include the date when corrections are made.** **COMMENTS AND Corrections are made.** **COMMENTS AND Corrections are made and a stackments was prepared under my direction or supervision in accordance with a	iarne aquaincation	e action items from previous inspections been addressed and documented within the time frame allotted by the inspector?			_
Is there evidence of seliment disknaps such as multiways addiment control, etc.) Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there a need to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankats, mulci, vegetated strips, rip rap, surface upplering, pies looped drain, dust control, etc)? Is there a need to repair, maintain, or improve sediment control BMPs (silf fence, check dams, fiber rolls, sediment trapbasin, inlet protection, wattles, rave balls, curb chack, etc? Is there a need to repair, maintain, or improve sediment control BMPs (silf fence, check dams, fiber rolls, sediment trapbasin, inlet protection, wattles, rave balls, curb curb-back, etc? Is there a need to repair, maintain, or improve good housekeeping controls (clean track out pad, sweeping, construction materials management, tertrash control, port-bottles staked down, fueling areas, concrete wash out area, proper curb ramps, spill provention, etc.)? Is there disturbed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozen ground)? COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE mility the problem and its location. If appropriate, describe (in general terms) what meds to be completed. However, only it qualified (e.g., you are a designed to assure that qualified personnel property for persons or persons who manage the system, or those persons that qualified personnel property and and severable of the formation, their described for persons who manage the system, or those persons that gradies for bodding their property and or household in the best of my knowledge and belief true, accurate, and complete, I am ware that there are applied and personal probability dispersions.	6. Are SW flows ent	ering and leaving the construction site controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, silt fence.	-		
Is there evidence of vehicles tracking soil off the construction site? Is there soil, construction material, landscaping items, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a commodation water body? Is there a need to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface applienting, pipe slope drain, dust control, etc)? Is there a need to repair, maintain, or improve sediment control BMPs (sitt fence, check dams, fiber rolls, sediment trap/basin, inlet protection, wattles, the stray abilis, curb cubback, etc? Is there a need to repair, maintain, or improve good housekeeping control (clean track out pad, sweeping, construction materials management, text a shall, not-ported stated down, fueling areas, concrete wash out area, proper curb ramps, spill prevention, etc)? Is there disturbed areas that have not had construction activities for 14 to 21 days without stabilization? (except snow or frozen ground)? COMMENTS AND CORRECTIVE ACTIONS FOR SWIPPE COMPLIANCE In the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only I qualified (e.g., you are a designer) should you be mandating specific Bile to I statil. Include the date when correctors are made. Section, please list all applicable SEV codes: By under penalty of law that the document and all attachments were propared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly in a formation scholard. Glassed on my largely of the proson or persons who manage the system, or house present with a system of eacily responsible of the pathering the information, the applicable SEV codes: By under penalty of law that the abcoursers and all attachments were propared under my direction or supervision in accordance with a system designed to assure that qualified personnel property and on what the affirmation such and the pro	apgradient boundar	y diversion, down gradient boundary sediment control, etc.)	(-		
Is there soll, construction material, landscaping items, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a born drain or water body? Is there a need to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface updehening, pipe slope drain, dust control, etc)? It is there a need to repair, maintain, or improve erosion control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface updehening, pipe slope drain, dust control, etc)? It is there a need to repair, maintain, or improve esodiment control BMPs (temporary stabilization, erosion blankets, mulch, vegetated strips, rip rap, surface updehening, pipe slope drain, dust control, etc)? It is there a need to repair, maintain, or improve esodiment control BMPs (temporary stabilization) (except snow). It is there a need to repair, maintain, or improve esodiment control BMPs (temporary stabilization) (except snow) and the protection, waster and the protection an				X	
COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE In the problem and its location. If appropriate, describe (in general terms) what needs to be completed.
