		Estimated Project Length (mo) 12	Previous Permit No. (if applicable)
		Estimated Start Date 7/15/2016	Actual Start Date

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

Subdivision: The date that the applicant submits the preliminary subdivision development plat application.

Site Plan: The date that the applicant submits a site plan application or amended site plan.

Building Permit: The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

Land Use Permit: The date that the applicant submits a land use permit application.

Other: At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

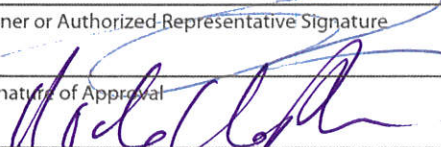

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

Please explain your request.
Construct a new single family dwelling and driveway on the property.

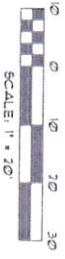

Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

Owner or Authorized Representative Signature 	Date 6/7/2016
Signature of Approval 	Date 6-7-16

Liberty, UT 84310

1. How much area will be disturbed? 22,800 square feet.
2. Who will be responsible for the conditions of the site during construction?
 - a. David Peterson, Project Manager, Peterson Builders Inc. 801-710-6056
david@petersonbuilders.com
3. What will be done to prevent the neighbors from being affected by the proposed construction activities?
 - a. Each trade contractor will clean up after themselves.
 - b. Peterson Builders will conduct site debris cleanup as needed throughout the project.
4. What will be done with all excavated material temporarily and permanently?
 - a. Soils from digging the footings will be used to backfill around the foundation and slope away from the home
 - b. We do not anticipate any stockpiles or remaining earth left over after construction.
5. Where is the concrete washout and how will it be maintained?
 - a. An 8 yard portable steel concrete dumpster shall be located on the premises. After all concrete is poured and trucks have washed out their shoots. The dumpster shall be removed.
6. Where are the Porta Johns located and how are they installed?
 - a. Porta John shall be located in front of the house near the sidewalk.
 - b. Porta john company shall stake down the porta john to prevent tipping.
7. How will the construction entrance be built and where will it be located?
 - a. Using 60 tons of 4" rock, a track out pad shall be created. It shall be the width of the drive by at least 20' in length.
8. What will you do when mud and/or dirt gets tracked on the asphalt?
 - a. scrape/broom the road to keep it free of mud or dirt.
9. Is there ditch or swale on or near your property? How will it be protected?
 - a. Yes there is a stream/drainage through the property. We will provide a silt fence around the downhill slope of the house to prevent debris and sediment from getting washed into the stream.
10. What currently happens to the rain/storm water when it reaches this project site?
 - a. It is absorbed into the ground or runs down hill into the stream.
11. Show all existing occupation on the property.
 - a. The site is unoccupied.
