Subject: **Plan Submittal Waiver**, Water Lines Serving Fairways 4 & 5 Subdivisions; Wolf Creek Water and Sewer Improvement District, System #29013, File #10813

Dear Mr. Thomas,

The Division of Drinking Water (the Division) received a Project Notification Form from your office for Fairways 4 & 5 water line project with a request for a Plan Submittal Waiver in accordance with *R309-500-6(3)(b)* of the Utah Administrative Code on April 5, 2017. The Division also received a hydraulic modeling analysis certification dated April 5, 2017 by Dan White, P.E., and a certification dated April 5, 2017 by Dan White, P.E., stating that Plan Submittal Waiver conditions will be met prior to placing the new water lines in service, for this project.

Our understanding of the project is that approximately 2,500 linear feet of 8-inch C900 PVC water line, six (6) fire hydrants, one (1) PRV, and associated valving will be constructed to connect the Fairways 4 & 5 Subdivisions (lots 61 through 83, Fairways 4; lots 84 through 100, Fairways 5) to the Wolf Creek Water & Sewer Improvement District system. This project will add 40 new service connections to the water system.

Your water system has formally designated Dan White, P.E., as the Professional Engineer having direct responsibility for the entire water system in your letter to the Division dated December 10, 2015; and Dan White, P.E., as the Professional Engineer responsible for oversight of the hydraulic analysis for the entire water system in your letter to the Division dated December 10, 2015. The construction of the proposed water line project shall conform to the construction standards previously approved by the Division on November 21, 2016. The pipeline size is within the limits of Rule *R309-500-6(3)(b)(i)* based on the population of 3,000 this water system currently serves.

On this basis, a **Plan Submittal Waiver is hereby granted for the Fairways 4 & 5 water line project**. Please note that approvals or permits by the local authority or county may be necessary before beginning construction of this project.

Upon receiving this Plan Submittal Waiver, you may proceed with construction of the Fairways 4 & 5 water line project. Upon completion of construction and the Plan Submittal Waiver conditions certified by Dan White, P.E., you may place the new water lines in service. You are not required to obtain an Operating Permit for this project.

If you have any questions regarding this letter, please contact Kelly Casteel, of this office, at (801) 536-4265, or Ying-Ying Macauley, Engineering Section Manager, of this office, at (801) 536-4188.

Sincerely,

Marie E. Owens, P.E.  
Director
