ELLA O FOWLES SUBDIVISION

PART OF THE NW 1/4 OF SECTION 14 TOWNSHIP 6 NORTH, RANGE 2 EAST, SALT LAKE BASE & MERIDIAN Unincorporated WEBER COUNTY, UTAH - Survey Dates: 2014-2015

NARRATIVE

1. The Basis of Bearing is as noted in the Boundary Description hereon. The purpose of the survey is to correct long standing deed errors for several properties identified in the Weber County Tax Record as parcel numbers, 21-019-0001, 21-019-0002, 21-019-0003, 21-019-0004, 21-019-0005, 21-019-0006, 21-019-0007, 21-019-0008. The error also affects parcel number 21-018-0015. The Parcel numbers and original document of conveyance for the respective lots are noted within each lot and are not intended to be the description of the properties. The references are included only to identify the root of title associated with each parcel.

2. The southwest boundary of Lot 1 is being modified in this subdivision in accordance with an agreement between the respective owners to match the existing fence line which has been used as the property boundary by each party and/or their successors in interest for a long period of time.

3. The description errors as originally conveyed were caused by a mis-description of the Point of Beginning of each parcel in the magnitude of about 100 feet being short of what the physically occupied locations of the property are in relation to the North Quarter Corner of Section 14, Township 6 North, Range 2 East, SLB&M. So the error has placed the deed for each parcel about 100 feet Northeasterly of

The North Quarter Corner has been in place since 1935 according to Weber County Surveyor tie sheet records. The deeds which first conveyed these parcels are noted on the plat for each lot with the grantor, grantee, and date of conveyance. The other two parcels that the Eagles own are being consolidated into the overall RV park property that they own and are not included in this subdivision. The Historic Easement Fences shown at the top right of the sheet (the lane

running north—south) identify the location of the original 20 foot easement granted for the use of the lot owners by Ella O Fowles as Book 444 page 299. The east fence is being held as the evidence of the right of way which matches the easement description as written and the west fence is very close to being a 20 foot offset of the east fence but that fence is not being held as the subdivision boundary. Rather, the west line of that lane is being held at 20 feet from the east fence. It is at the south end of these fences that the granted easement no longer conformed to the existing road as it is fenced and used by the lot owners. 6. This plat is holding an existing fence as the north boundary of this subdivision and the right of way is set to be 20 feet southerly of this north boundary which will not coincide with some of the existing fences near the south line of the described

and granted Private Right-of-way (Ella Way). 7. The West boundary is being held on an existing fence line that the Eagles and the owner of Lot 1 have agreed to hold as their boundary.

8. The southerly boundary is intended to be the thread of the river and the courses shown are only intended to document approximate angle points in the river. The

described line in many of the original deeds is the center of the river. 9. This project is located in the F-5 Zone of unincorporated Weber County and has been grandfathered in as Legal Non-conforming lots.

10. Documents used in the survey are numerous which relate to the title of the property. Almost all of the documents within the NW 1/4 of the section have been looked at in some manner. Those that specifically reference the properties being dealt with have been examined in more detail. Additional documents used in this survey are as follows:

10.1. Record of survey plat number 3210. 10.2. County Tie Sheet records for the North Quarter and Northwest corners as well

as the Bearing Sheet for the township were utilized.

1. The property owners are hereby noticed that this property is entirely within FEMA flood zone AE and appropriate precautions

should be made. 2. Weber County Ordinances contain a provision relating to a 100' Protection Zone for natural water courses (100' WCo. P.Z.). Because this plat is only correcting the record descriptions of parcels that have existed prior to zoning laws of the state and prior to the protection zone requirement this ordinance restriction is being waived and the properties and structures are "grandfathered" as legal non—conforming
