Mailing Address of Property Owner(s)/Authorized Representative(s)

4293 W. 1800 S.

## Project Information

Project Name

Lot #4 Belmont park

Project Address

4293 W. 1800 S.

Estimated Project Length (mo)

8 months

Previous Permit No. (if applicable)

Estimated Start Date

5/1/17

Actual Start Date

5/1/17

## Submittal Checklist

☒ The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

**Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.

**Site Plan:** The date that the applicant submits a site plan application or amended site plan.

**Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

**Land Use Permit:** The date that the applicant submits a land use permit application.

**Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

## Applicant Narrative

Please explain your request.

Construct New Residence and driveway on Lot

March 20, 2017

In reference to SWPPP – Storm Water Pollution Prevention Plan

1. Main living area will be excavated and material will be used as back fill to create slope way from house.
2. Clay Holtry will be responsible for the conditions of the site during construction. 801-603-6100.
3. All construction activity will occur from at 7am to 8pm. The lot is 256' long and 197' wide and the home will only be 75' with the home being built in the corner of the lot farthest away from any existing homes.
4. The excavated material will be temporarily placed in one pile until used for backfill around the house graded at a slope as per code.
5. Please see site plan for concrete washout area. It will be lined with plastic and hauled away when full.
6. Within 50ft of the home site a portable toilet will be installed with rebar ties
7. The existing approach will be used for the site entrance. It has 2" rock covering the driveway.
8. A tractor and broom will be used in the event that any mud or debris is tracked on the road way.
9. There are no drainage ditches or swale in the area.
10. Currently the construction site is covered in grass and is lower than the sidewalk. The rain water is contained on the lot and is absorbed into the existing foliage.
11. At the time of construction, there will be no existing occupation on the lot
