NARRATIVE

The purpose of this survey is to create a 1 Lot subdivision from a larger parcel. The basis of bearing of bearing is State plane Grid Bearing as shown.

The County Surveyors office was aware the calls in the deeds along this road called to "the center of a County Road" but the bearing and dimensions in these deeds did not fit the center line as the road exist on the ground. Therefore the Surveyors office surveyed the location of this road to better define the "center of the County Road". The Road Dedication for this plat is determined from the alignment of the centerline of 2900 East Street and was provided to us from the Weber County Surveyors office in 2014. There is no evidence of this road being dedicated by the County and therefore the road dedication is included in this plat.
