## Agricultural Description of Property

This 6.15 acre piece of property located on the North West corner of 4100n and 3800e in Liberty has and will be used for agriculture. Elk are bred, grazed, handled (vaccinated and ear tagged) and raised on this property. The handling facility and agricultural storage area is used to store hay, grain and other farm supplies. It is also used to bring the elk into a smaller area in the winter and be worked. The new calves are ear-tagged and micro-chipped in compliance with the Utah Department of Agriculture rules. All the animals are vaccinated once a year to maintain health.

The meat cutting building will be used to butcher and package the elk meat for consumption. It will have a meat grinder to make hamburger, cutting and packaging areas. There will also be freezers to freeze and store the processed meat.

The property is irrigated with the Liberty secondary water system that is in place. It is irrigated during the spring and summer months and any excess hay is harvested and stored. Weeds are controlled and the land is replanted when needed.

There is also an apple orchard, raspberry patch and a garden which are also part of the agricultural use of the property.
