	Previous Permit No. (if applicable)
	Estimated Start Date ASAP
	Actual Start Date

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

Subdivision: The date that the applicant submits the preliminary subdivision development plat application.

Site Plan: The date that the applicant submits a site plan application or amended site plan.

Building Permit: The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

Land Use Permit: The date that the applicant submits a land use permit application.

Other: At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

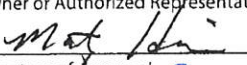

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

Please explain your request.

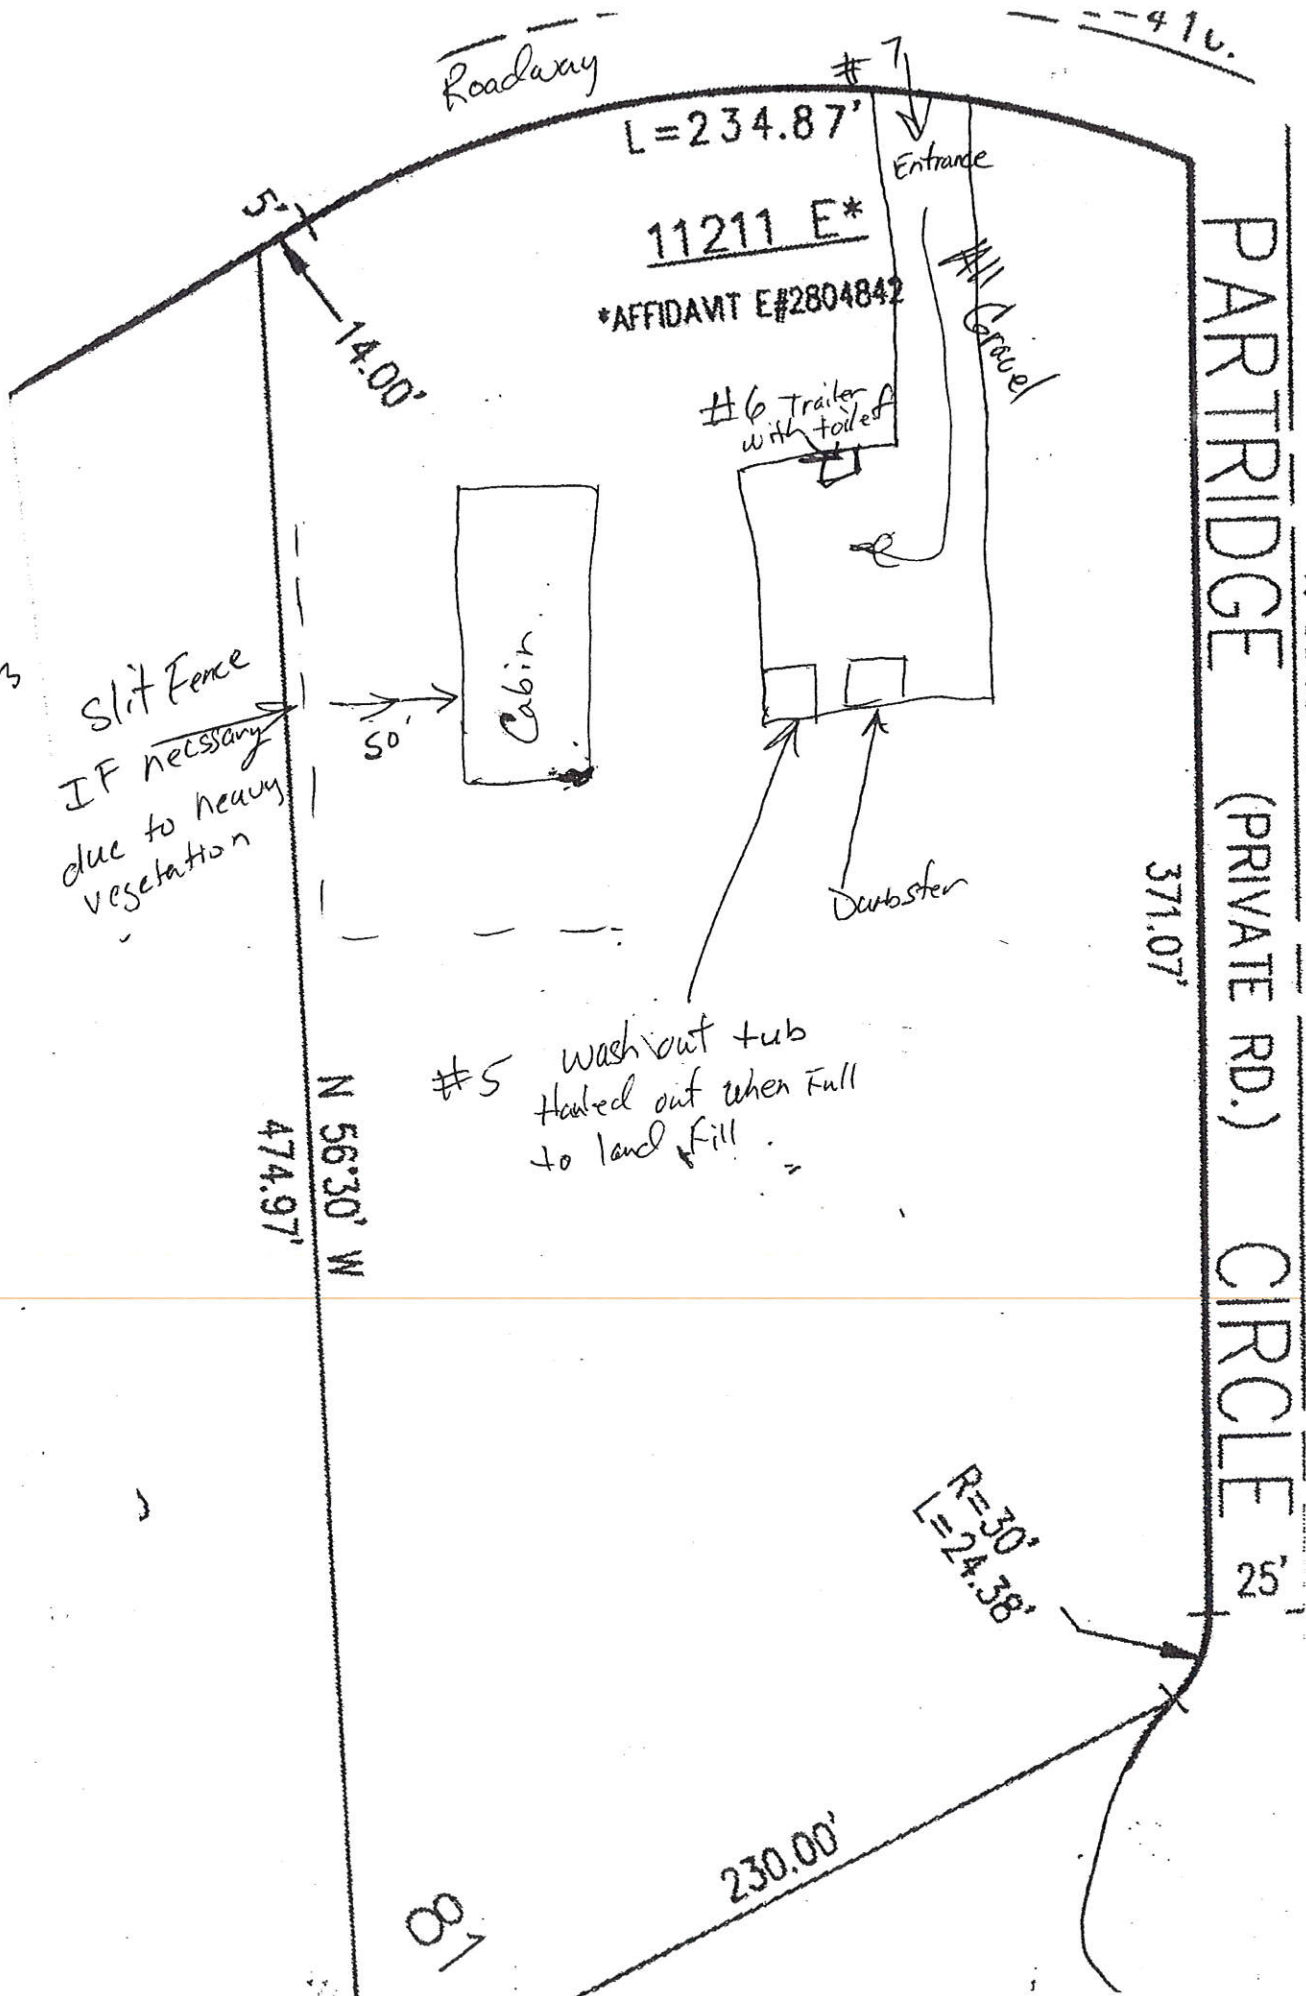

Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

Owner or Authorized Representative Signature 	Date 6-22-17
Signature of Approval 	Date 6-26-17

SWPP Stormwater Pollution Prevention Plan

1. 80' x 60' will be disturbed.
2. The owner (Marty Harris) will be responsible for the conditions during construction.
3. A slit fence will be erected if necessary due to heavy vegetation. See attached diagram.
4. All excavated materials will be temporarily saved and covered. All materials will be used for backfill and landscaping.
5. See attached diagram for placement of wash out tub. A wash out tub will be used and hauled out to a land fill when full.
6. A travel trailer with toilet will be on site at all times for use. See attached diagram for placement of trailer.
7. There is a gravel entrance already in place, see attached diagram.
8. There is no asphalt, all roads are dirt roads.
9. Drainage ditch or swale on property N/A
10. Rain/storm water. N/A no storm drains, very heavy vegetation takes care of this situation as it is in mountain.
11. The only occupation on the property at this time is just the travel trailer see attached diagram.
