

To whom it may concern,

We are neighbors of the butcher shop located in Liberty Utah. We enjoy living in a rural community that is surrounded by agriculture, such as hay fields, crops, and grazing animals. We support and enjoy local businesses and farmers that help maintain a community with undeveloped land and open natural pastures.

We do not feel that this small butcher shop has had a negative impact on the surrounding area for the short 12-13 weeks that it functions. We have not had to endure any undue hardship. We also understand that by allowing small operations like this to function it benefits us all by helping sustain a rural community.

Thank you,

Signed
