Subject: Powdercat - Copper Crest West
Foundation Design Basis

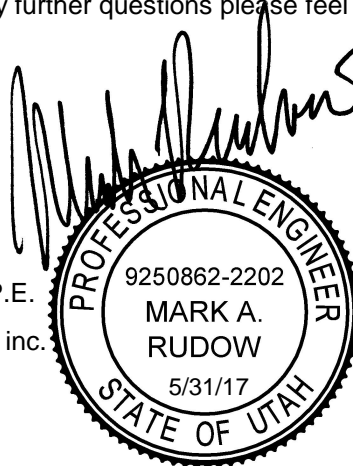

To Whom it May Concern,

This letter is to inform you that to the best of our knowledge, we have designed the foundations on this project in accordance with the recommendations contained in the geotechnical report authored by Intermountain GeoEnvironmental Services, Inc. (IGES). The IGES project number is 01628-022 and it is dated January 16, 2017. The report is sealed by David A. Glass, P.E.

If you have any further questions please feel free to contact me at my office.

Sincerely,

Mark Rudow P.E.
