Comments

A geologic hazards assessment has been performed and a report has been prepared by IGES dated January 16, 2017, identified as Project #01628-022. All site development will need to adhere to the geologic and geotechnical recommendations in the report. IGES engineering geologist and geotechnical engineer must observe the foundation excavation for the proposed townhome to confirm the absence of adverse geologic conditions in the area. Prior to issuing the Certificate of Occupancy, Weber County will record a "Notice of Natural Hazards Disclosure" against the property for future property owners information.

Land Use Permit

Structure Setback Graphic: New Dwelling, Addition, Etc.

MINIMUM YARD SETBACKS New Dwelling, Addition, Etc.

NOTICE FOR APPLICANT (Please Read Before Signing)

Proposals for the installation of an individual water supply and for a sanitary waste disposal system (septic tank) for any structure designed for human occupation must be approved by Weber County Health Department prior to installation.
