Comments

All site improvements including the location of the single family residence and the final grading/landscaping of the site shall strictly adhere to the recommendations outlined in the Geologic Hazards Assessment Report from IGES Project# 01628-013 dated August 3, 2016 (revised July 19, 2017). It is recommended that IGES is present during the excavation of the home site to evaluate the site specific soil conditions which will allow IGES to make any necessary modifications to the recommendations outlined in the report if differing conditions are encountered during excavation. Prior to receiving the final occupancy, a Natural Hazards Notice (to be provided by Weber County) must be recorded with the Weber County Recorder's office per LUC #104-27-5.
