Subject: **Plan Submittal Waiver**, 10-inch and 8-inch Water Line Serving 180-Lot Sunset Equestrian Cluster Subdivision, System #29019, File #10950

Dear Mr. Surrage:

The Division of Drinking Water (the Division) received a Project Notification Form from your office for the Sunset Equestrian Cluster Subdivision with a request for a Plan Submittal Waiver in accordance with *R309-500-6(3)(b)* of the Utah Administrative Code on August 15, 2017. The Division also received a hydraulic modeling analysis certification and a certification stating that Plan Submittal Waiver conditions will be met prior to placing the new water lines in service for this project, both dated August 15, 2017, by Dan White, P.E.

Our understanding of the project is the installation of approximately 8,350 lineal feet of 10-inch and 5,100 lineal feet of 8-inch PVC C-900 DR-14 bell and spigot water lines, 25 fire hydrants, mainline valves and service connections to 180 lots. This subdivision is located between 1800 South and 2200 South and between 3800 West and 4300 West in Weber County.

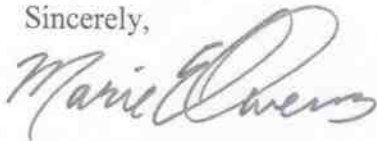

Your water system has formally designated Dan White, P.E., as the Professional Engineer having direct responsibility for the entire water system in your letter to the Division dated August 23, 2012; and Dan White, P.E., as the Professional Engineer responsible for oversight of the hydraulic analysis for the entire water system in your letter to the Division dated August 23, 2012. The construction of the proposed water line project shall conform to the construction standards previously approved by the Division on September 10, 2012. The pipeline size is within the limits of Rule *R309-500-6(3)(b)(iii)* based on the population of 7,595 this water system currently serves. On this basis, **a Plan Submittal Waiver is hereby granted for the Sunset Equestrian Cluster Subdivision water line project.** Please note that approvals or permits by the local authority or county may be necessary before beginning construction of this project.

Upon receiving this Plan Submittal Waiver, you may proceed with construction of the **Sunset Equestrian Cluster Subdivision water line project**. Upon completion of construction and the Plan Submittal Waiver conditions certified by Dan White, P.E., you may place the new water lines in service. You are not required to obtain an Operating Permit for this project.

If you have any questions regarding this letter, please contact Gary Kobzeff, of this office, at (801) 536-0099, or Ying-Ying Macauley, Engineering Section Manager, of this office, at (801) 536-4188.

Sincerely,

Marie E. Owens, P.E.
Director
