

NOTES

- Lot 6 may have an ADU.
- ADUs may be used for monthly rentals only when primary residence is owner occupied.
- Agri-tourism is an approved use on agricultural lots.
- Ditch along 900 South Street to be Piped with 15" RCP Storm Drain.
- Recommendations on the Geotech Report shall be followed during construction of this site.
- Private Roads shall have a 30.0' Temporary Turnaround Easement at the end of each street during the construction of each Phase.
- Fire Flow for Subdivision shall be 1000 GPM.
- A temporary address marker shall be required at the building site during construction.
- Any Fire Access roads to any property shall have a minimum clear width of 20 feet (face of curb to face of curb) and a vertical clearance of 13 foot 6 inches and shall be capable of supporting a 75,000 pound load. Roads that are less than 26 feet in width shall be posted with "NO PARKING FIRE LANE" on both sides of the roadway. Roads more than 26 but less than 32 feet in width shall be posted on one side of the roadway. (Roadways and signage shall comply with appendix D of the 2015 International Fire Code as adopted by Weber Fire District).
- Roads shall have a maximum grade of 10% unless specifically approved as outlined in the International Fire Code.
- Dead end fire apparatus access roads in excess of 150 feet in length shall be provide with an approved area for turning around fire apparatus constructed with the same requirements as the roads.
- For subdivisions with more than 30 single family residences, a second fire apparatus access road required.
- Roads and bridges shall be designed, constructed and maintained to support an imposed load of 75,000 lbs.
- Fire access roads for this project shall be completed and approved prior to any combustible construction. Temporary roads shall meet the same requirements for height, width and imposed loads as permanent roads.
- All required fire hydrants and water systems shall be installed, approved and fully functional prior to any combustible construction.
- The owner shall designate a person to be the fire prevention program superintendent who shall be responsible for the fire prevention program and ensure that it is carried out through completion of the project. The fire prevention program superintendent shall have the authority to enforce the provisions of this chapter and other provisions as necessary to secure the intent of this chapter. Where Guard service is provided, the superintendent shall be responsible for the guard service. The fire prevention program superintendent shall develop and maintain an approved pretire plan in cooperation with the fire chief. The fire chief and the fire code official shall be notified of changes affecting the utilization of information contained in such pretire plans. (see IFC 3308)
- All roads shall be designed, constructed, surfaced and maintained as to provide an all-weather driving surface.
- Fire department apparatus access is required for each lot.
