## NARRATIVE

This Subdivision Amendment was requested by Mr. Brian Opheikens for the purpose of subdividing the existing ground to better accommodate future plans for the property.

Brass Cap monuments were found at the East Quarter, Southeast Corner, and South Quarter corner of Section 8, Township 6 North, Range 2 West, Salt Lake Base and Meridian, U.S. Survey. Positions for the Center of Section 8 were calculated into position from county records. The Northwest Quarter of the Southeast Quarter of said Section 8 was then calculated from these positions.

A Record of Survey for Robert Penman Dated April 22, 2008 and filed November 24, 2008; and a Record of Survey for J. Andrew Penman Dated August 10, 1988 and filed August 04, 1989 were used as reference for this plat.

A line bearing North 0°41'20" East between the Southeast Corner and East Quarter corner of Section 8 was used as the basis of bearings. Property corners were monumented as depicted on this drawing.

Not to Scale

There is an easement given to UDOT for a shared access. Where is this located at?

Is this where the access will be for the lot? Is there an easement for the access? Is there a UDOT approval letter?

Where the topography of the drainage does not appear to create a hazard it will not be a requirement to pipe. However, if the property owner is ever improve the frontage area then it would be required to pipe it per UDOT requirements.

There needs to be an easement on this ditch/storm drain. Is this storm drain or irrigation? Letter from the irrigation co. approving of the easement. Easement will need to be able to be located.

What are the dimensions and bearings. All property lines.
