COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMPs to install. Include the date when corrections are made.

It appears as though work has been mostly completed but there are a few items that still require your attention. The silk fence needs to be removed, the site needs to have 70% of the disturbed area be revegitated, the box in the detention basin needs to be cleaned out and your NOI is expired and needs to be renewed.

Inspector, please list all applicable SEV codes:
