COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMPs to install. Include the date when corrections are made.

The swppp is no longer on site.

There is some sediment around the inlet box.

It appears that they want to file for an NOI, but the site has not reached the vegetation requirements, so it's not eligible for NOI yet.

They may have placed sod since the county went out for the inspection, at the time of the visit it was not vegetated.

The NOI has expired. The only thing that really needs to happen is to get the site re-vegetated.

Inspector, please list all applicable SEV codes:
