

MEMORANDUM

To: Rick Grover, Weber County Planning Director
From: Charles Ewert, AICP
Date: July 12, 2018
Subject: Parade of Homes Guidance Signs

Rick,

It has come to my attention that the Parade of Homes or a similar program has located guidance signage in the public right of way. It has also come to my attention that there is a complainant that may be asserting that these signs are not lawful. Based on my reading of the Ogden Valley Signage Code §110-2-9(b)(5), when authorized by a governmental agency guidance signs are permissible. If the County authorizes the Parade of Homes guidance signs I would think they are in compliance with this section of code. I recommend doing so based on the limited timeframe of the signage and on condition that they are removed from the right-of-way as soon as the event is over.

Attached is the map of signs, as has been explained to me.
