Re: Fenster Farms Phase 2

The owners of Fenster Farms Phase 2 subdivision have completed the required agreements, provided the needed water and plans have been approved. Mt. View Irrigation will supply the 8 lots with pressurized secondary water. Before Mt. View Irrigation will allow any individual connections to the system, the final improvements will need to be in place and approved and each individual lot will need to pay a connection fee. Building permits should not be issued until a receipt of payment of the connection fee is provided.

Thank you,

Kami Marriott
