How does the drainage get by here?

Isn't there a hill in this area? How will the delivery truck get delivery to building?

Additional Parking if needed

I know if this is not a 60ft ROW it is planned to be. Will the Truck Access be located outside of this area? Will there be improvements to this access?

Truck Access →

need some dimensions etc placed to describe this better.

Any work in the County ROW requires a excavation permit obtained through our office.

How does drainage get by here? Need to see a detail.
