

Property owner: Jared Jensen

Location: Sunridge Highlands Lot #114

Parcel: 231120004

Property owner: Jared Jensen
Address: Sunridge Highlands Lot 114
Parcel: 231120004

1. How much area will be disturbed?

Approximately 4000 sq feet

2. Who will be responsible for the conditions of the site during construction?

Property owner

3. What will be done to prevent the neighbors from being affected by the proposed construction activities?

- a) Sunridge has a 50' set back requirement; so we should not contact the neighbor's properties.
- b) This parcel is downhill from all neighbors except to the North which is Sunridge common ground.

4. What will be done with all excavated material temporarily and permanently?

Excavated material will be used as fill to level the area to the North and West of the bldg (downhill side).

5. Where is the concrete washout and how will it be maintained?

Concrete washout is located about 100' South of the bldg site (reference attached sketch).
Excess concrete will be kept on the property, broken up, and used as road base.

6. Where are the Porta-Johns located and how are they installed?

Porta-Johns will be self-contained trailers that are already on site (reference attached sketch).
Sunridge also has public restroom facilities with flushing toilets.

7. How will the construction entrance be built and where will it be located?

The entrance is pre-existing from a previous land-owner. The approximate location is shown on the attached sketch.

8. What will you do when mud and/or dirt gets tracked on the asphalt?

There are no asphalt roads located within several miles of the property.

9. Is there a drainage ditch or swale on or near your property?

No.

10. What currently happens to the rain/storm water when it reaches this project site?

Most rain is absorbed into the mountainside. Any uncommon excess rain or runoff would run downhill onto Sunridge common land.

11. Show all existing occupation on the property.

See attachment.
