

Addendum  
Stormwater Construction Activity Permit  
Hoffman  
3110 N Hwy 162  
Eden, Utah 84310

1. There will be no excavation in the Right of Way, so we will not be applying for an excavation permit.

2. SWPPP-

A. There will not be more than 5000 square feet of earth disturbed. The addition we are building is only 53 feet by 29 feet. We will only move enough material to pour footings and a shallow (4 feet) excavation for the lower level of the addition..

B. There will not be more than 200 cubic yards of material moved during construction.

C. We will be responsible for the condition of the construction site during its entirety.

1. We will disturb no more earth than is absolutely necessary.

2. We will clean up any refuse or debris immediately.

3. Construction will only be done during the hours of 7 am and 9 pm.

4. Access to the site will be thru the existing driveway and the gravel driveway to the accessory buildings. Any mud, dirt, or debris from vehicles entering or exiting the site will be cleaned up as needed. A water hose is available for removing any mud prior to entering the public right-of-way.

5. Any materials removed for excavation will be stored immediately next to the construction site and any material not used in backfill will be used for landscaping. If necessary, material can be sprinkled with water to keep dust to a minimum. Again, we don't anticipate large amounts of earth or gravel, etc. to be sitting unused.

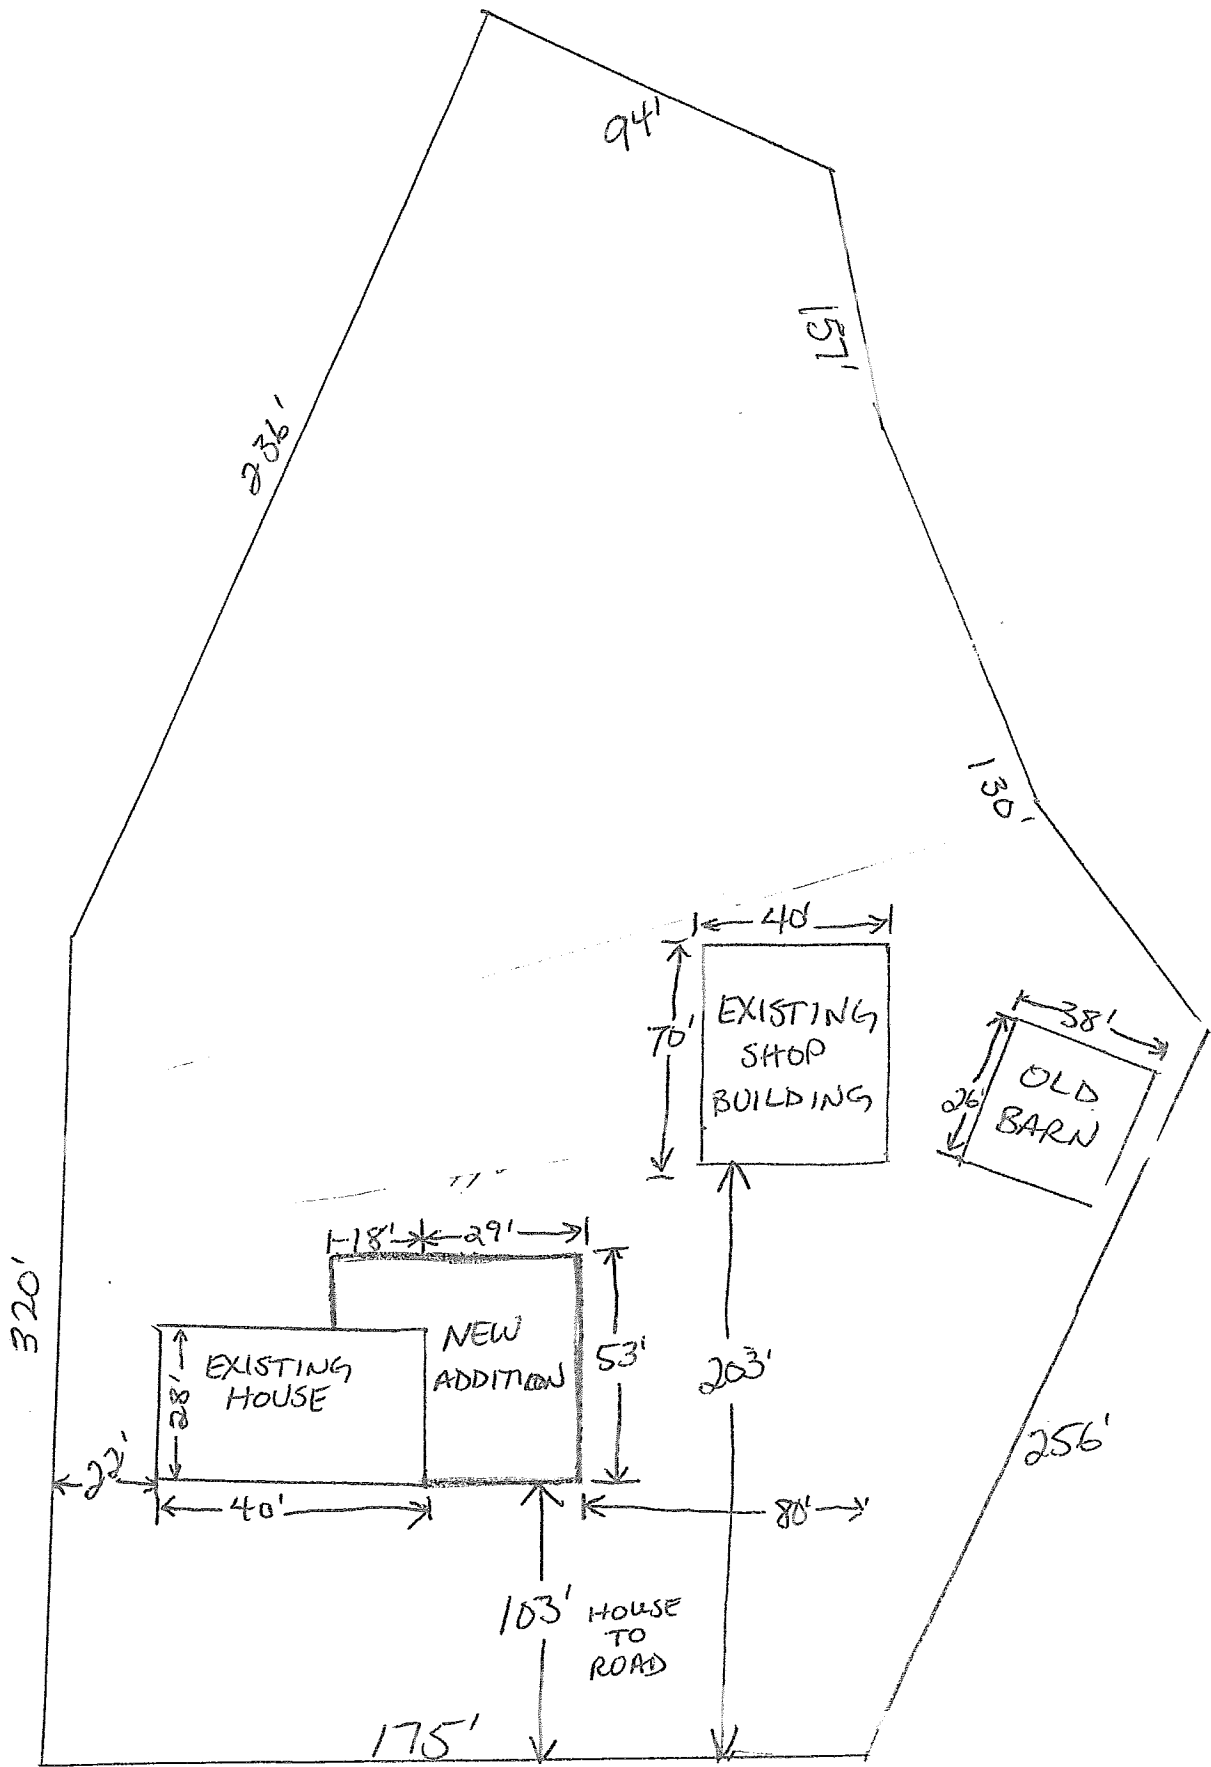

6. There are no ditches, swales, culverts, or other storm water drains on or near the construction site. Any rain water drains into the soil.

7. As we are doing the construction with the help of family, friends, and limited sub-contractor involvement, our current bathrooms in the existing home will be used for toileting and washing of hands etc. There should not be any need for a portable toilet; however, if one is needed, it will be placed on the gravel driveway near the accessory building to the east of the existing house.

Please let us know immediately if there are any concerns which have not been addressed.
