

1. How much area will be disturbed? **2000 square feet**
2. Who will be responsible for the condition of the site during construction? **Owners/Gordon Frisbey, Roxanne Ball and David Ball.**
3. What will be done to prevent the neighbors from being affected by the proposed construction activities? **The neighbors are far away and up on a ridge so there should be no impact on them.**
4. What will be done with all excavated material temporary and permanent? **The Material will be kept on the property we own for when we need some material.**
5. Where is the concrete washout and how will it be maintained? **The concrete washout will be spread out in 1 inch depth or less along the east side of the existing building and then crushed when dry and used for road base.**
6. Where are the porta-Johns located and how are they installed? **No porta johns will be used. We will use the bathroom in the existing building.**
7. Where will the construction entrance be built and where will it be built? **There is already a road coming off of 1550 east that is now and will be used for the project.**
8. What will you do when mud and or dirt gets tracked onto the asphalt? **All dirt for the house project will stay on the property.**
9. Is there a drainage ditch or swale on or near you property? **No**
10. What currently happens to the rain/storm water when it reaches this project site? **It now goes and will go in to the pond.**
11. Show all existing occupations on the property. **There are none.**
