

### **Parking Plan**

At the end of the driveway off of 4700 W we would cover the ground with gravel to mark the designated parking lot. Approximately 12 spots would be marked with stalls 9'-10' wide and 20' long. Most of our participants come with a group and carpool.

We are actively working with UDOT for access permission off of 4700 W and can use 950 N until access is granted.
