For Your Information

26-1-7 Subdivision Time Limitations.

(A) Time Limitation for Preliminary Approval. Subdivision applications that have not received preliminary approval within 18 months from the date of submittal shall be void. Subdivisions that have received preliminary plan approval shall have eighteen (18) months from the date of the preliminary approval by the Planning Commission to receive a recommendation for final approval of the subdivision, or the first phase.

The Planning Director upon repayment of the subdivision application fees and the plan being brought into compliance with County ordinances, and State and Federal laws current at the time of the extension may grant an extension of preliminary approval for an additional time of up to eighteen (18) months. The extension request shall be submitted, and approved prior to the expiration of the original approval period. Only two time extensions for preliminary plan/plat extension will be granted. The Planning Director shall deny any requested time extension beyond the two that are based on financial, economic, or self-imposed hardship.

The extension request shall be submitted and approved prior to the expiration of the original approval period.

(B) Time Limitation for Final Approval. A final subdivision plat or a phase of a subdivision that receives a recommendation for final approval from the Planning Commission shall be offered to the County Commission for final approval and recording within one (1) year from the date of the Planning Commission's recommendation for final approval. After one (1) year from that date, the plat shall have no validity. Subdivisions with multiple phases must record a new phase within one year from the date of the previous phase being recorded until the subdivision is completed or the plat shall have no validity. The Planning Director may grant a onetime extension for final subdivision approval for a maximum of one (1) year. A multiple phase subdivision may receive only one time extension, not one time extension per phase. An additional time extension may be granted if the hardship is determined to be a county cause delay.

(C) Any subdivision that has received preliminary or final approval, including a subdivision with multiple phases in which all of the phases have received preliminary approval, but has become non-conforming in any manner due to changes in applicable ordinances shall be allowed to retain the density which it was approved provided that the originally approved phasing plan is followed and the time limitations for preliminary and final approval are met.

Subject: Proposed three lot subdivision title report

Sandra:

Nice to have talked with you. I am attaching the preliminary plat contemplating the three lot subdivison we just discussed.

It should be very clean. It has been twice surveyed, with a third survey completed around 2004 by Mr. John Browning an adjoining neighbor which confirmed all share points and borders. Tyler at Landmark Surveying (801-731-4075) has been commissioned to complete this last survey prior to Final plat approval.

Parcel ID # 07-574-0001 Weber County, UT

Let me know if you require any additional information.

Thanks and regards,

Matt Rasmussen
