Detailed Description of Proposed Use/Structure

1. I plan to build a timber 8 x 14 foot timber framed shed for storing fire wood. I will place a concrete pad.
2. I plan to place a wind generator on the property near the existing solar panels to supplement the existing solar system.
3. I plan to add a covered deck on the east side of the existing house.

The shed will provide a dry place to store our fire wood for the winter. The wind generator will supplement the solar panels in providing off grid electricity to the property. The deck will provide a place to gather out of the elements and enjoy the natural beauty the property offers.
