### Product description

Size: **Propane Gas** | Color: **30-Inch**

This product is a 30" Heavy duty warp-resistant steel with high temperature black paint. Triple Fire Pit LP Propane Gas Burner Kit from Stanbroil factory. Fire Pit Rings are the quickest and most economical way to build a fire pit. Create the feeling of a world class resort in your own back yard with this Fire Pit Burner Rings. Enjoy the dancing warmth of a dramatic and luminous campfire flame while gathering around your fire pit with family and friends. Heavy duty warp-resistant steel with high temperature black paint material will remain trouble free in the outdoors. Fire rings kits are designed to be used only in an outdoor fire pit using propane fuels and also be used for gas logs, lava rock, fire glass etc. Flame height is directly related to the BTU output of the unit. For maximum flame height, allow for BTU 435,000.

#### Best Hundred Dollars I Spent All Summer!

Reviewed in the United States on October 25, 2016

Size: Propane Gas Color: 12-Inch **Verified Purchase**

This fire pit burner ring is the perfect upgrade, that actually made our fire pit enjoyable!

I purchased this to "upgrade" our existing wood burning fire pit this summer, because while I love to have a bonfire, I ABSOLUTELY HATE the lasting smell on my skin, hair and in my clothes. The kit arrived and it is pretty self-explanatory. I simply drilled a large enough hole in the pan from our existing fire pit that allowed the pipe that feeds the ring to fit through.

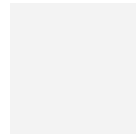

After about 30 minutes of assembly / installation, the new kit was installed and ready to be tested. I also purchased 20 pounds of fireplace glass and added enough to cover the ring

Sponsored

completely, so that it cannot be seen through the glass.

When we want to have a fire now, I simply turn on the valve, light the fire and enjoy! No smell, no mess, no ashes to clean. When we are ready to head in for the night, I simply turn off the valve and go inside. No hot ashes to worry about smoldering on the deck or dirty ash water dripping on my deck all night. Best \$100 I spent on the yard all summer. I highly

**Good, but needs whistle free line**

Reviewed in the United States on April 10, 2017

Size: Propane Gas Color: 24-Inch **Verified Purchase**

Wife here using my hubby's account: I bought this to install in a concrete block fire ring, as opposed to wood burning.

We went down to the hardware store to get blocks to make a fire pit, leveled out the dirt, placed the blocks, with a little trench for the propane line to run out underneath to the tank (which we hid in one of those propane tank covers that we got at Target and will use it as a side table next to our adirondack chairs), filled the pit most of the way with lava rock while holding the ring kit in place, then we will add decorative glass beads for the last few inches to cover the ring itself once they arrive.

The propane burner ring kit was super easy to put together, install, & works really well, but one big (HUGE) downside is that the flex line is not whistle free. I highly suggest replacing the flex line (the one with all the corrugated ridges) between the key and the burner ring

**Most significant feature? It works as you expected it to!**

Reviewed in the United States on July 8, 2019

Size: Propane Gas Color: 18-Inch **Verified Purchase**

I bought a patio set with a fire-table but set up for wood. Mrs. wanted gas. Purchase this unit (along with the glass beads), and 2 days later, after not more than 20 minutes of assembly, we were burning! Excellent light, some heat, mostly atmosphere, and easy to use and adjust the flame.

Gave it 4 stars only bc I think it was a little pricey. Easy to assemble. I used the grate from the wood burning fire pit, covered it with a "grill mat" cut to size, to hold the glass beads.

**Amazing set up**

Reviewed in the United States on July 22, 2020

Size: Propane Gas Color: 24-Inch **Verified Purchase**

This is exactly what I wanted. I was afraid that the flames would be too small....Quite the contrary!....This set up throws flames a foot or 2 in the air. I have yet to need more than having the valve about 30% open. Even off a BBQ propane bottle, you won't need to worry about having enough flame height.

Amazon Customer

**Make sure you have enough gas pressure**

Reviewed in the United States on January 4, 2020

Size: Natural Gas Color: 30-Inch **Verified Purchase**

So the flame hight is only about 1/2 inch when fully opened.

It's connected to a 1/2 gas line but plumber said it should be fine. Possibly need a higher pressure gas meter (that's what was recommended) but a little disappointed I went though all the work to build the pit and run gas line for nothing.

I'm going to try adding a smaller ring to see if that will help. The gas fireplace inside my house seems to work just fine with the gas pressure I have.

**Amazing product and customer service!!!**

Reviewed in the United States on December 15, 2016

Size: Propane Gas Color: 12-Inch **Verified Purchase**

I bought this before Thanksgiving and it arrived quickly and in tact. I had a friend of mine put it together for me. After installing it and putting the fire glass all around it, I lit it but it was only burning in the center. I emailed Stanbroil customer service and sent them a picture. They suggested a few things for me to try. They even emailed me after a couple of days to see how things went. I hadn't had a chance to try their suggestons yet. A day or two later I did but that didn't help. I emailed them back and they suggested that maybe it was a faulty fire ring so they sent me another one at no charge. I installed that one and still the same thing happened. I took more detailed pictures and emailed them back. They informed me that it was put together upside down. Lol Well, I guess if ya want something done right... Sooo I took everything apart and reinstalled it myself and voila it works beautifully!!! I emailed Stanbroil again thanking them for working with me and asked how to send back the extra fire ring. They told me to just keep it as a gift. Now, mind you, this was not a product failure, and they still were more than accommodating to me. I would recommend this company and product to anyone. I love it and the customer service is impeccable!!! Thank you again Stanbroil customer service for making my shopping experience amazing.

**Complete burner kit that works well--very easy to install**

Reviewed in the United States on November 20, 2018

Size: Propane Gas Color: 12-Inch **Verified Purchase**

The burner kit is complete and pre-assembled on hose set up to used on grill sized LP gas tank. We Just added a ceramic planter, glass beads and the tank. It only took 30 minutes to assemble. The flame is adjustable by the valve on the hose---I attached it to the table frame

using plastic ties. The burner sets just the right ambiance for entertaining in the evening without putting out too much heat---we live in Florida.

**Good firepit but annoying noise...**

Reviewed in the United States on April 21, 2020

Size: Propane Gas Color: 24-Inch **Verified Purchase**

OK the firepit works great but the knob that controls the gas pressure is making a lot of clicking noises. It's very annoying to me.

I will build an enclosure for the propane tank to hopefully hide the noise or look for a replacement part.

Any ideas?

Also there is a feint high pitch hum from the firering while burning lp gas.

**For under \$250 I changed a useless wood wire pit into a \$1000 + propane unit.**

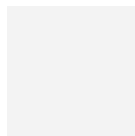

Reviewed in Canada on May 31, 2021

Size: Propane Gas Color: 12-Inch **Verified Purchase**

I used it to convert a wood fire bowl to propane. I think it looks great.

Observations:

- Tighten all connections. I felt some weren't tight enough.
- Be careful how big a burner you buy. I was debating between the 12 & 18" and went with the 12 and am glad I did. The larger burner would have been overkill.
- The 18" flex line was perfect length.
- The 4' hose from the regulator to the tank was too short so I swapped with an 8' hose I had on a portable gas grill.
- I filled up to the burner with pea gravel as it is cheap and then added the fire rock on top.
