To Whom It May Concern:

Huntsville Irrigation is converting all open ditches into a pressurized pipe system. Because of this project many secondary ditches are going to be abandoned. Starting in the next few weeks and finishing by May 2014 the ditch in the middle of the Verhaal property will be abandoned. The pipe will run down the ditch at the back of their property.

If there are any further questions, please contact Huntsville Irrigation Company.

Sincerely,

Brenda Grow  
Secretary/Treasurer
