Jon,

This email can act as our pre application meeting notes. Since this is a one lot subdivision off an existing road, we don't need a street connectivity plan. Here is what you will submit on frontier.

1. The surveyed subdivision plat
2. Title report dated within 30 days of the date of subdivision submittal
3. Culinary water will-serve letter
4. Secondary water plan
5. Septic feasibility letter

Once this is all uploaded, we will add an invoice for the subdivision fee to be paid. Once that is paid our planning technician will review the application for completeness and it will be assigned to a project manager once the application is complete. Let me know if you have other questions.

Thanks,

Steve Burton
