

## Central Weber Sewer Improvement District

August 8, 2013

Weber County Planning Commission  
2380 Washington Blvd.  
Ogden, Utah 84401-1473

Reference: Proposed Mallard Springs Subdivision  
2200 South 4300 West

We have been asked review the possibility of providing sanitary sewer service for a proposed Mallard Springs Subdivision at 2200 South 4300 West. Central Weber can accept the sanitary sewer discharge from this location. We add the following conditions that must be met prior to any connections being made.

1. The entire parcel of property to be served will need to be annexed into the Central Weber Sewer Improvement District (District) prior to any connection and prior to the selling of lots. An annexation petition is available from the District's Office.
2. The District must be notified for inspection at any time connections are being made to the District's sanitary sewer lines. The District will NOT install, own and/or maintain any of the sanitary sewer lines being extended to serve this property.
3. The plans and details for the sanitary sewer connection at 2200 South and 4300 West must be submitted to the District for review and approval. The District does not take the responsibility for the review of the design of the collection system for the subdivision.
4. Impact Fees must be paid prior to any connection to the sanitary sewer.

If you have further questions or need additional information please do not hesitate to contact me.

Sincerely,

CENTRAL WEBER SEWER IMPROVEMENT DISTRICT
