**Status: APPROVED**

### Specific Comments:

1. After meeting with Brian Gold at the facility, it was indicated that the only changes taking place to the original site plan are the addition of hoop houses in the area labeled as “building 6 and building 7”. As this is the only change, and the buildings are classified as type “U” occupancies, there are no specific requirements regarding these structures. As the buildings will require power and natural gas lines, all utility work must be approved by the appropriate agencies.

Every effort has been made to provide a complete and thorough review of these plans. This review DOES NOT relieve the owner, contractor and/or developer from compliance with any and all applicable codes, and standards.

Any change or revision of this plan will render this review void and will require submittal of the new, or revised, layout for fire department review. If you have any questions, please contact me at 801-782-3580.
