Brad and Jessica,

Here are our pre application meeting notes for your MPD overlay zone application. Please upload this email as a pdf to the application when you create it.

For a rezoning application we need a master concept plan that shows lot layouts with roads, trails, sidewalks and open space, project narrative, and feasibility letters. I recommend reading through the MDP overlay zone that I sent you recently for other submittal requirements. There will also be a fee that our Planning Technician will upload to the frontier project that you can pay online.

We will need both Heritage and Brad to sign the application. This will need to be done through a document that you will upload to the project on frontier. Please let me know if you have other questions.

Thanks,

Steve
