Cindy,

I think we'll just call this good enough. Please add items 3., 4., and 5. to the plat and I will ask Jared to sign it.

Rochelle,

I have redafted alittle on this Utility dwg,

Addded or made the SSMH more apparent, both MH are now shown fairly clearly now,
Have not found the WM for Lealand Parcel I did not find any Blue for the Water on Lelands parcel, umm should be on
Melanie thou.

The 10' PUE along Woodland, has a WM setting atop of a 24" RCP pipe, +/- 2' high,
and on it, it is written, in purple, (IRR), " AV" which could be an abre. for the Aueduct Valve, and it is within 10' Est.
for this Utility.
Funny things you find out there, ha ha

I hope this map will be useful, and let me know if I have to go out and find the other water meter, or should we call B.S.
again for the
water connection on Leland parcel.

Have a wonderful Holiday Rochelle, and Thank You for your help.

Cyn Segriff

Cindy,

This looks good. I wonder about sewer to the Hall's and water & sewer to the Leland's though. Also, do you have any idea
what utility is in the 10' pue which has been built over top of?

Rochelle

Attached is the map of the Utilities that were shown on the ground by Blue Stakes,

Hope this helps, Call me 801-399-4935 probaly get throu this alot quicker if you call me on these locations or the lack of locations

Thanks
Cyn
